CSS	<div style="width: 85%;"></div>
HTML5	<div style="width: 90%;"></div>
Bootstrap	<div style="width: 80%;"></div>
GitHub	<div style="width: 95%;"></div>

SOFTWARES USED

- VS Code
- Visual Studio
- WordPress
- Adobe Illustrator
- Shopify
- Figma
- Xampp
- Cloudflare

About Me

I'm a web developer skilled in both front-end and back-end development, specializing in creating CMS-based websites using WordPress and Shopify. I handle hosting, domains, and DNS settings, and use Figma for designing user-friendly interfaces. With experience in basic SEO, speed optimization, and a flair for illustration, I'm always eager to learn and take on new challenges to create solutions that make an impact.

WORK EXPERIENCE

Armish Technologies – Web Developer & Team Lead

May 2022 – present

- Lead and manage web development projects for both client and brand websites using Laravel, WordPress, and Shopify.
- Handle domain, hosting, cPanel, and server-related tasks for the company and clients, ensuring smooth operations.

Universal Digital Solution – Junior Developer

Nov 2020 – April 2022

- Website Developer - Responsible for complete Web Designing to Web Development.
- Also worked on company's and client's hosting, cPanel and server related tasks.

Freelancing:

- Collaborate with local and worldwide clients to build websites using WordPress, Shopify, and custom solutions.
- Successfully deliver projects on platforms like Fiverr, Upwork, and Freelance, ensuring client satisfaction.
- Maintain a personal portfolio website: bilalkhan.website

Final Year Project:

"Smart Shopping Trolley Using RFID" – Responsible for designing UI for application and connectivity with cloud to fetch data. Also prepared weekly and final report.
